

Team Makes Great Strides With Switch Upgrades at Two Admin Sites

Elizabeth Montes and David Deitsch from Presidio successfully upgraded both the CFISD Exhibit Center and the CFISD Science Resource Center switching infrastructure on **Tuesday, December 13, 2016**.

Elizabeth verified with both Security and HVAC that they were able to reach their department's appliances post conversion. In addition, **Elizabeth** reached out to Denise Kubecka from the Curriculum Department to verify the marquee at the Exhibit Center was functioning properly. **Jose Vargas**, the service technician, was also able to help verify that all the network printers were back online and working.
