

2018-2019 Student Password Information

Effective, Monday, August 13, student passwords are set to expire at the first login of the school year.

The default password for students at the start of school will still be "Cfisdmdd" where mdd represents the students' month/day of their birthday; students will be required to change their password when they first login to the network.

Student passwords will need to be between 8 and 16 characters in length and contain 3 of the following 4 character types: upper case, lower case, numeric, or any of the nonalphanumeric characters ~!@#\$%^&* _+=`|\(){}[];:'"<>.,?/ .

Technology Services has reset student passwords for the purposes of security and student real world experience. As the District continues to move forward on the digital path of resource accessibility anytime from anywhere, student identities and information must be protected and secured at all times. Students must also be made aware of the importance and their responsibility to ensure the integrity of their usernames and passwords at school and beyond. Teaching them now will help protect them later.

Questions and/or concerns may be addressed to the Customer Care Center.
