Acquisition, Assets, and Sustainability

This was the last week of school and everyone is busy trying to get every thing completed. Our Assets team is working feverishly to get all of the equipment moved so the construction teams can start working on all of the renovations. The acquisition team is processing the last minute orders and the Service Center team is busy finishing up with the last of the service requests. What a busy time for my teams. This makes me realize how lucky we are to have such great teams working at CFISD.
