

# Technology Personnel Action Committee (TPAC)

## Employee Satisfaction Definition:

Employee satisfaction is the extent to which employees are happy or content with their jobs and work environment.

## Employee Engagement Definition:

Employee engagement is the extent to which employees feel passionate about their jobs, are committed to the organization, and put discretionary effort into their work.

Employees are the greatest tool of our department. Employee engagement will transform our department from within. TPAC may be a component to assist with that transformation.

# Reflections

## Acquisition, Assets, and Sustainability

School is out and our teams are already working hard to be ready for the start of the new school year. Our summer workers have already started moving the technology equipment to secure areas so the construction and renovations can begin. This is a very busy time for our teams. This makes me reflect on what we are doing now and how it will affect what will happen for the start of school. All of the tasks we complete now will make for a smooth start and a successful school year.

- Jay Johnson

### Quote of the Week

*“More than anything else, you’re going to need the ability to communicate authentically, to speak so that you inspire the people around you and to listen so that you continue to learn each and every day on the job.”*

- Sheryl Sandberg
