Technology Service Center CTO Re-assigned

Frankie Jackson CTO for CFISD trying new Service Center assignment.

Reflections

Acquisition, Assets, and Sustainability

As I reflect back on this week, I think about what was accomplished. The Acquisition team is finishing the last of the POs for this school year. The Service Center team is supporting summer school and completing the last of the iSupport requests. The Assets team is preparing and delivering new replacement laptops to the administrative staff at the schools. They are also scanning the technology equipment at the administrative campuses to update the inventory information. What great teams we have!

Quote of the Week

“The only real mistake we make is the one from which we learn nothing.”

- *John Wesley Powell*
