

# Technology Service Center Installing New Network Printers

James O'Reilly, Steven Rodriguez, Brandon Splawn, and Christopher Preston (not pictured) are busy delivering new network printers to campuses in Zone 4.

They can be seen here finishing up Frazier Elementary school. James is doing some paperwork while Steven and Brandon take a moment to be silly while their picture is taken.

# Organizational Announcement

## *Technology Services A+ Certification*

The Technology Service Center would like to congratulate Bradley Mulligan on earning his A+ Certification from CompTIA.

The knowledge needed to pass this exam will be a great benefit to the district and to Bradley's customers.

Congratulations Bradley!!

# Organizational Announcement

## *Technology Services A+ Certification*

The Technology Service Center would like to congratulate Samuel Jones on earning his A+ Certification from CompTIA.

The customers on his route will greatly benefit as a result of Samuel's hard work and dedication.

Congratulations Samuel!!

# Reflections

## Acquisition, Assets, and Sustainability

Only one more week left in July. Where has the time gone. The Service Technicians will be back on contract August 1<sup>st</sup>. I hope all are eager to get back to work. I think they will be surprised at how much has been completed this summer. They will have new skills to learn with the new LanDesk and how to use the Print Logic. This just two of the new things they will need to know. This should be a great year with all of the new Technology – **Jay Johnson**
