

Assets Team Police Department Training

Chris Seale sets up laptops for aCypress Fairbanks Police Department's annual in service training. This was a two day event that required technical support from Technology Services.

Assets Team Working With Construction

Michael Grimes, Martin Donald, Paul Garrett, Alexis Imperial, Chris Seale and **David Rodriguez** converged on Post Elementary to move all of Willbern Elementary's technology back to the renovation campus. This is one of many moves that will be happening over the next couple of weeks until schools are ready to open for the year.

Assets Team

Ensuring Greater Information Accuracy

Geoffrey Brown and **Richard Crishock** have been in constant communication to update the information that is sent to TipWeb IT for staff information. Working together they have changed the parameters of what is imported into the system allowing the Assets team to get more information for increased accuracy. The new parameters have been sent to Hayes Software and they have already started pulling the new information.

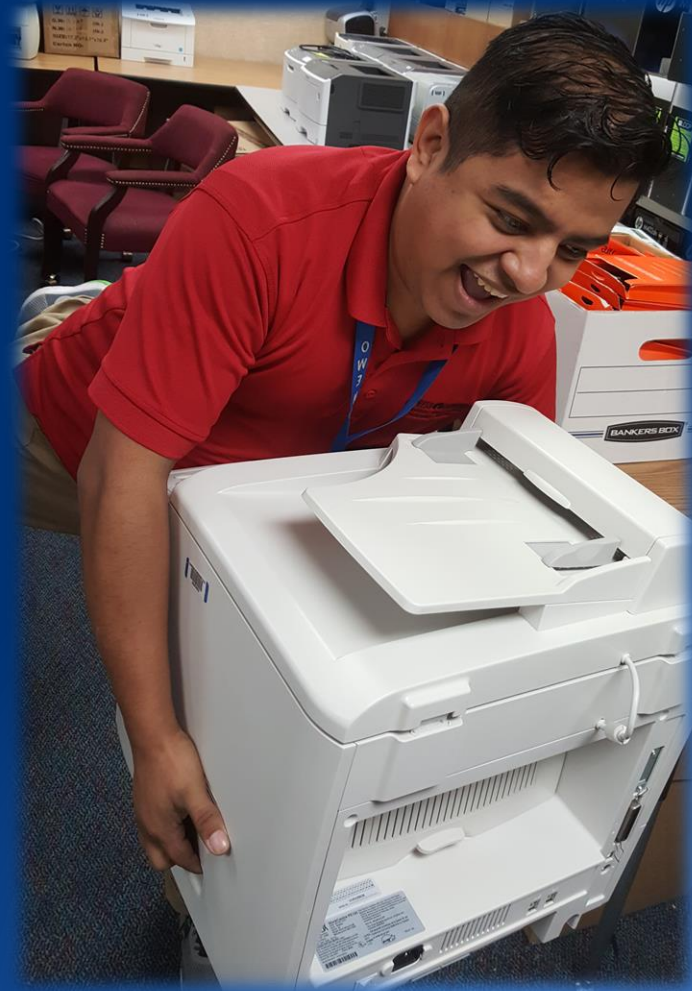

Organizational Announcement

The Technology Service Center would like to congratulate Jose Mendez on earning his A+ Certification from CompTIA. As a result of his hard work and dedication, Jose will be promoted to a Technician II.

Congratulations Jose!!

Reflections

Acquisition, Assets, and Sustainability

This week we were able to start putting equipment back into some of the construction schools. This has given me hope that we will be able to have all of the schools ready for the first day of classes. It also looks like we should be able to start the delivery of equipment to Wells elementary very soon. We should also start delivering equipment to the new Matzke elementary building. So as I reflect on the start of school, it looks like we will be able to complete our start-up tasks as we do every year.
