Official Technology Audit Update

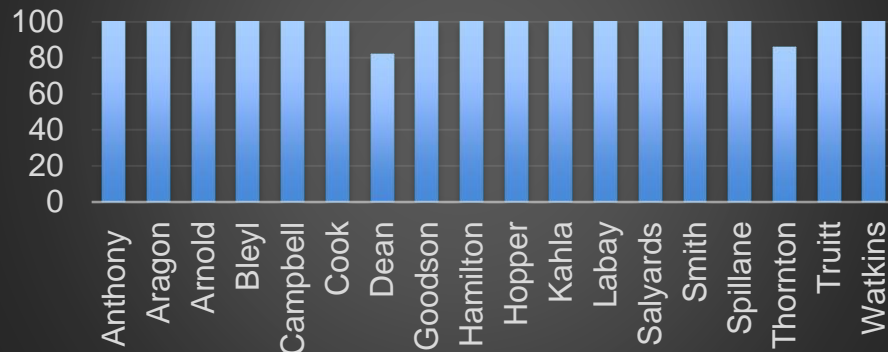

January 8, 2016

The due date for the scanning phase of the 2015-2016 Technology Audit has passed and as of today the Secondary Campuses have a combined completion rate of 99%. We are now moving into the District Level Reconciliation(DLR) phase of the Technology Audit. We will be reviewing the data that has been turned to us by the campuses to ensure that the campus inventories are accurate.

Sustainability Team Deliver Projectors

Over the holidays the Technology Service Center team lead by supervisor Doug Baker installed over 180 projectors at the secondary schools. The Service Center team also delivered over 50 projectors to the elementary schools. Pictured lower left is Robert Hernandez and to the right is Chris Roberts. These were just two of the technicians that were involved with the install and delivery of the projectors.
