# Assets Team Leader Conducts Technology Audit Training

Leonard Chance, the Asset Team Leader, had the opportunity to conduct an additional training session with two of our newest technicians Edward Quintanilha and Eric Pina. The technicians requested additional training to increase their comfort with the inventory management system as they embark on their first official district audit.

# Assets Team Visits Rennell Elementary

After receiving a report of excess equipment from the technician for Rennell, the Asset team set up a meeting to assess the claim. Jay Johnson, Leslie Thomas and Leonard Chance had the opportunity to meet to discuss this issue in great detail. We would like to thank Ms. Thomas for her time, and her insight into the needs of her campus. With her assistance we were able to accurately assess the needs of the campus and set a plan to have the excess equipment pulled from her campus and reallocated to campuses in need.
