# Assets Team Provides Audit Training

Leonard Chance and members of his Assets team had the opportunity to train the Secondary School Technicians on how to properly conduct an official District Technology Audit. There were four class on Wednesday November 4<sup>th</sup>. The service technicians picture at the right were engaged and received instructions on have to complete this most important task.

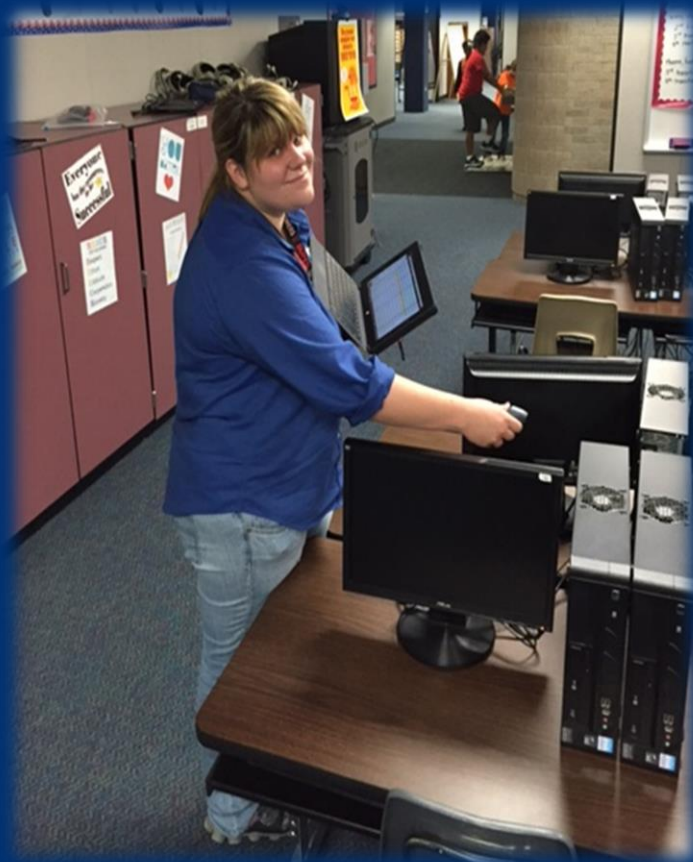

# Assets Team Provide Official Technology Audit Training

Leonard Chance leader of the Assets team with members of his staff is shown above providing training to the Secondary School Service Technicians on how to properly conduct an official District Technology Audit. The technicians attending the class shown above, were eager to learn the correct process on how to conduct their audit at their campus. The training was a big success with most of the service technicians attending one of the four classes offered.

# Assets Team Conducting Campus Audits

Technology inventory season is upon us. Cassandra "Cassie" Slade and David Rodriguez have been going from campus to campus conducting campus Technology Audits. They have started with the Elementary campuses in Zone 4 and are working their way through the district.
