Presidio Support

**Tony Rogers**, one of the newest additions to the ECN team, lead the switch upgrade effort at Warner ES on Friday, December 4, 2015. With campus administrative permission, the switch upgrade was performed during the school day. It is a goal of Technology Services to deliver campus upgrades in a timely fashion. The best way to accomplish this is by performing the upgrades during the day.

Friday's installation: 15 Cisco switches – 10 in MDF and 5 in IDF  
6 Liebert UPS units

# ECN Team Tackles the First Pair of Elementary Schools: Leading the Way is Farney Elementary

**Elizabeth Montes** lead the Cisco switch upgrade effort at Farney ES on Friday, December 4, 2015. **Elizabeth** is pictured to the right with three different vendors that are supporting CFISD with the campus upgrade effort. **Elizabeth** worked with Presidio to deploy 17 Cisco switches. Gigabit Technologies managed the wiring of the switches in the MDF/IDF closets. SolidIT Networks worked with **Elizabeth** to install 7 new uninterruptible power supply (UPS) units. As a result of the upgrade, the campus will notice improved connectivity speeds, with minimal outages.
