

Charles Newton: Newest Addition to Technology Services Exemplifies Departmental Values

Charles Newton

Values are the guiding principles for how our department provides service. In his short, five week tenure with CFISD, **Charles Newton** has repeatedly displayed all six of our core values, with an emphasis on *Efficient*, *Highly-Skilled*, and *Service-Oriented*.

Efficient – With the assistance of Roland Padilla, **Charles** was able to hit the ground running and organize a systematic approach to the CFISD VOIP Project. **Charles** is pictured left leading the 1st Phone Selection Committee Meeting that was held December 10, 2015.

Highly-Skilled – Provide **Charles** with direction and he needs little, or no supervision. He has the ability to manage tasks in an orderly fashion, efficiently solve problems, then communicate results effectively.

Service-Oriented – **Charles** has the ability to maintain a big picture perspective by foreseeing service issues and/or pitfalls in an approach or solution. During the phone selection committee meeting he exercised good listening skills, then provided the committee members additional information the next day.

Thank you **Charles** for raising the bar and displaying quality work values!
