

Campus Renovation at Cy-Falls HS

A substantial renovation is underway at **Cy-Fair HS**. This renovation is being completed in groups of approx. ten classrooms. During the construction, the students are being moved to portable classrooms.

Every two weeks, the Wifi APs and other technology equipment is removed from the impacted classrooms by **Glen Carpenter**, from the **ECN team** along with **Juan Cantu** and **Patrick Allred**, the **campus Technicians**. After the construction is complete, they re-install the equipment.

Campus Renovation at Cy-Falls HS

As part of the **Cy-Fair HS** renovation, **Glen Carpenter** is re-installing the Wi-Fi access points. The rooms aren't ready yet for the rest of the technology equipment, but **Glen** is able to install the Wi-Fi access points while the final construction steps are still underway.
