

Organizational Announcement

David Deitsch Joins the Enterprise Communication Network (ECN) Team

Technology Services is pleased to announce that **David Deitsch** has joined the ECN Team as the new ECN Manager. David is no stranger to CFISD. He has spent a significant number of hours onsite as a contractor working with our team on the following bond initiatives: VoIP deployment and network switching upgrade at the edge.

David brings extensive Cisco experience to the district. He will be working with the group to manage core to edge infrastructure, including both VoIP and Wireless systems. David brings a fresh approach to managing a number of complex initiatives.

David began his career in the Navy by spending 5 years as an aviation electrician's mate. David received his bachelor's degree from Saint Leo University in Florida and is currently working toward his Master of Business Administration online degree from University of Maryland.

Please join us in welcoming David to both CFISD and Technology Services.
