

DEVICE IMAGING AND INTEGRATION Connects

Nancy, Derly, and Joel

DII Team team members **Nancy Grella** and **Derly Buentello** met with Joel McCotter from Layer3. The meeting was held to discuss moving and connecting the district ChromeBooks to the CFISD_CP (wireless network for district devices). Prior to this all the ChromeBooks were connecting to CFISD_BYOT.

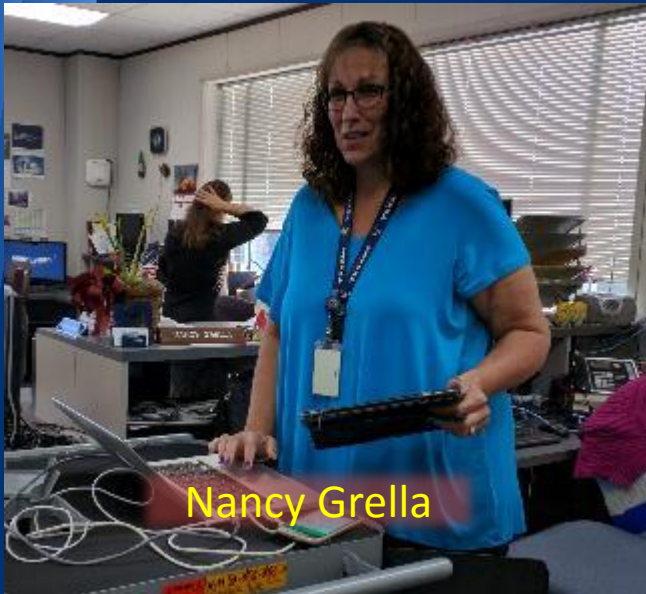

Lillie taking selfie

Lillie Swearingen DII team member worked with HoverCam to make sure the software was working as intended. This action was initiated after reviewing iSupport tickets and listening to the Campus techs describe what they were seeing out in the field. Lillie connected the dots and started the research.

DEVICE IMAGING AND INTEGRATION

Making things better

Nancy Grella

Nancy Grella is working on converting “Pilot Project iPads” (first set of iPads the district purchased) and adding them to AirWatch. This is a long process but the schools will have a better performing device. Thanks Nancy!

Paula and Jennifer

Larry Barrios met with Paula Ross and Jennifer Miller on Thursday to discuss getting equipment up and running at Pidgeon Stadium. They are seen here on two cell phone with Frank Adian and Anna Senties. The team worked on plan to get machines ready for the game that night!

DEVICE IMAGING AND INTEGRATION

An APP meeting

Michelle, Ashely, Leonard, Jay and Becky

With **Larry** turning 50, he thought he was going to an AARP meeting, but he attended an APP meeting. APP in this case stand for Application, which is tied to classes and software. **Larry Barrios** and **Michelle Campos** met with Ashley K, Leonard Chance, Jay Johnson and Becky Cook to discuss App Codes. The team met to discuss and talk about the difference in APP for LANDESK, INVENTORY and Project Sheets.
