

Enterprise Communications Network Operational Highlights

EFI Digital StoreFront is the award-winning flexible eCommerce solution that offers the industry-leading print buyer experience designed to win new business, acquire new customers and grow your existing business. On **February 24, 2017**, **Lance Melancon** was working on the Print Center WEB-TO-PRINT project. **Lance** was not able to file transfer protocol (FTP) to website - <ftp.efi.com> . **Andrew Tran** worked with **Lance** to modify the Fortinet firewall rules to allow CFISD to access EFI via FTP.

Enterprise Communications Network Operational Highlights

During the week of February 24th, **Ray Leung** and Layer3 worked on adding and relocating wireless access points (APs) to provide better signal coverage in the library at Ault Elementary School. Due to access points being knocked down by students, **Layer3** replaced the 45 degree access point mounts with Gym box enclosures to house the access point to prevent future damage by students.

Enterprise Communications Network Operational Highlights

On **Friday, February 24 at 6:00 a.m.**, **Michael Raspet, Andrew Tran and Thomas Hollister** replaced a faulty power distribution unit (PDU) in the ISC-N Computer room. The PDU was giving a faulty voltage reading so the vendor sent us a replacement unit.
