

ECN Team Discusses Patching Standard

Most cable installers take great pains to meet installation requirements, dress cables neatly, and patch according to standards in the network closet. MCA Communications brought to CFISD's attention that with the new Commscope patch panels currently being installed, not all cable installers were following the same standard during installation. **Oscar Villar**, **Charles Newton**, **Ray Leung**, and **Anna Senties** discussed patching options with MCA on **Friday, September 2, 2016**. MCA Communications was planning to install several new networking closets at Pridgeon Stadium over the weekend and wanted to verify CFISD standards.

ECN Team Discusses Patching Standard

In an attempt to minimize confusion, **Charles Newton** took the time to create a Visio diagram depicting the CFISD patching standard for the new Commscope patch panels.
