

# Enterprise Communication Networks Organizational Announcement

*Certify Yourself for Success:*  
Elizabeth Montes

On **Monday, February 19, 2018**, **Elizabeth Montes** passed the Cisco ICND1 exam, qualifying her as a Cisco Certified Entry Networking Technician (CCENT). A CCENT has ability to install, operate and troubleshoot a small enterprise branch network, including basic network security.

By obtaining this certification, **Elizabeth** displays the fact that she has the foundational understanding of network layers 1-3 that are applicable to core routing and switching. Also included in this certification is a broad-based introduction to firewalls, wireless controllers, IPv6, and basic network security. Please join me in congratulating Elizabeth as she expands her technical expertise and prepares herself for new technical challenges and opportunities.
