

Individuals + Team Work = Job Well Done

The responsibilities of the Information Services and Applications team are a daily work-in-progress. Their duties touch every aspect of our students', parents' and staff's school experience and they work diligently to ensure the smooth operation of many, many programs and processes. The support they offer is remarkable!

*Every Student,
Every Day.*

I just wanted to send you a note to let you know how much I appreciate your team.

I often work with John Crumbley and his team to accomplish a wide variety of tasks. Shout outs are necessary for John, Dorothy Tong (I really miss her!!), Rodney White, Donna Van Hooser, Norma Blenderman, Tammie Bartkowiak, and Richard Hoffman. These are the individuals I am lucky enough to work with regularly and I don't know what I would do without them.

I think these individuals work on so many important tasks. From report cards, PEIMS submissions, district progress monitoring, programming requests, and so much more; they keep the district going.
