

The Initiation of a Toastmaster's Club

The Technology Services Education Technology Leadership mentoring team is coordinating the initiation of a Toastmasters Chapter. There is a great need to improve our staff's public speaking skills. Michelle Campus and Elizabeth Montes volunteered to coordinate the details for starting the chapter. On Wednesday, **August 1, 2018** we had members from the Houston area Toastmasters chapter visit our team and run through a demonstration to encourage participation. The department will be paying for the first 25 staff members that want to join.
