

# Technology Service Technicians Prepare Labs for All District Staff Development

After I left the new hire orientation on Friday, [August 5, 2016](#), I ran into Becky Cook, Director of Instructional Technology. She made it a point to tell me that Frank Adian had been so helpful to her during this stressful time as she prepared for a week of staff development training, scheduled for August 8-12, 2016. She said [Robert Hernandez](#), [Art Ramirez](#), [Doug Baker](#), and [Brandon Splawn](#) were in the labs preparing devices the devices. She said they were a **DREAM TEAM!** I went and found them buried in Lab 1 at the Berry Center and they there were, setting up all the devices and making sure all of the correct software was installed so that on Monday, the first day of staff development, everything would be ready to go. Their great attitude, smiles, and expertise do make them a DREAM TEAM. Thank you for all that you do – **Frankie Jackson**
