

Staff Working at Francone Elementary Getting Ready for School Startup

Frankie Jackson visited Francone elementary school on Friday, August 12th, 2016. The following picture is Anna Senties showing off the new network closet. The closet is now cool, safe in a separate locked room, and neatly organized. Shown on the right is MCA technicians installing prometean interactive white boards. Staff is working hard to get ready for the first day of school.

Anna Senties, Enterprise Network Communications (ECN) Network Specialist at Francone elementary, showing off new network infrastructure closet

MCA Technicians working at Francone elementary, installing prometean board panels. The installation requires a complex setup with cabling and wall mounting, taking between 30 minutes and 1 hour to complete.
