

E-Rate Update Regarding REIMBURSEMENT Requests from the Universal Service Administrative Company (USAC) Schools & Libraries Division (SLD) - Selective Review Information

On January 19th, 2016 we received notification of a Selective Review from USAC. Selective Reviews are conducted by USAC when information provided on applications for E-Rate funding are incomplete or unclear. The response to a Selective Review must be concise and submitted within 7 calendar days in order to progress to the final stages of funding. This particular Selective Review involved 9 different applications for potential refunds of \$10,594,207.37 to the district.

Thankfully our E-Rate consultant with Education Service Center, Region 12, Nancy Sustala, is a true professional. She obtained a deadline extension for us and worked patiently with Katie Hernandez to formulate the critical response which was successfully submitted February 4th.

The great news is that the SLD is assessing our requests and funding reimbursements may be awarded soon!

Type of Funding Request	Total Request
Enterprise Internet	\$75,600.00
Dark Fiber Service	\$42,112.80
