

Participation in the Houston Urban Area Security Initiative: Cybersecurity Mini-Assessment Workshop

Frankie Jackson participated in the Houston Urban Area Security Initiative (UASI): Cybersecurity Mini-Assessment Workshop on Friday, **June 3, 2016**. Dava Morris also attended, along with many other K-12 local area school districts. Klein ISD hosted the event. The workshop included going through a mini-assessment to give participants an awareness of the type of security controls that need to be in place.

The workshop was informative. Plans are underway to talk to the UASI about conducting a full assessment in the future.
