

CAMPUS TECHNICIAN SUPPORT

Technicians In Action - CyCreek

Esmond DeSouza from CyCreek worked with **Erica Chaikin**, an art teacher who has to use a teacher lounge as a classroom. **Erica** had a projector on a cart that she used to wheel into the middle of the classroom, which caused a problem with cords on the floor. **Esmond** installed a 50" TV and a Tiny with a wireless keyboard and mouse that can be used anywhere in the room, removing the fire hazards and making life easier for **Erica**.

Frank Adian provided **Esmond** and **Daniel Pham** with 30 surplus Tiny's to replace the Dell 6400's in order to provide a more reliable library lab environment for daily use and testing.
