

CAMPUS TECHNICIAN SUPPORT

Supporting Hamilton MS

This past week **Sandra Hoppe** from Hamilton MS worked with **Denise Kaltenbach**, Principal Secretary, and **Candi Mouser**, Finance Secretary. Sandra had helped by verifying that the 2 admins received their new Admin replacement M710Q computers. Sandra made sure that the computers were setup and working correctly after swapping out their older equipment.

Supporting Hamilton MS

Sandra Hoppe from Hamilton MS worked also with **Tara Coleman**, 7th grade Math teacher. Sandra had to verify that Tara's HoverCam was working correctly after her teacher laptop was re-imaged this week. The hovercam is one of the important tools that the teachers use to show students how to do and accomplish tasks.

CAMPUS TECHNICIAN SUPPORT

Volunteers for Multi Factor Authentication

Richard and Paul

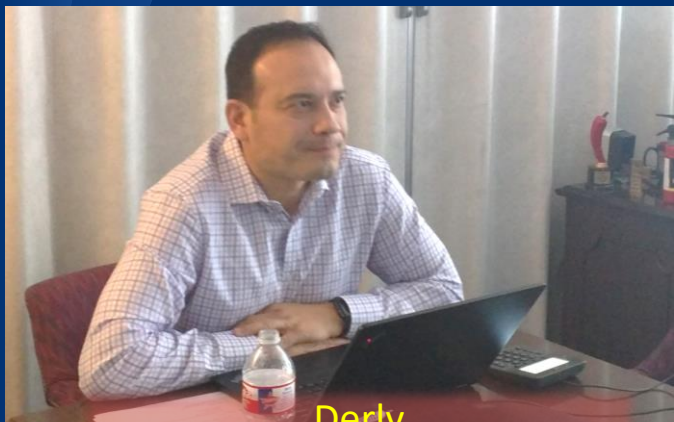

Two of the campus technicians came in last week on Friday to participate in the Multi Factor Authentication (MFA) small group rollout. **Richard Kurtz** from Smith MS and **Paul Garrett** from Dean MS took part in the MFA rollout. This will allow the technology team to verify instructions and set up standards which will be used for the whole district. Thank you guys for participating.

Holly

Rock and Luis

Derly Buentello had a Zoom meeting with High School Campus Technicians. Larry just did not do a slide on it.

The meeting was a success. DII has had good feedback from the campus technicians. This is something that DII will continue to implement.

Derly had an agenda that went along with the Great 8 Expectations. The GR8 are what the techs are measured on as far as performance goes..
