

# Thank You to Technology Services Staff

Week Ending June 12, 2015

I haven't taken the chance to thank **Samara Rivera-Rangel** for the many times I ask for her help and she is always there. Not just this week but for many times in the past. Many Thanks, Samara! Roland Padilla

I want to Thank the **Technicians** for helping out at Berry Center for the RRR on the 8th and 9th. Frank Adian

The **Customer Care Center** received notification Friday afternoon that 6 laptops were needed for a meeting on Monday @ 8:00 am. With team work from **Amanda Medeau**, we were able to efficiently test the laptops for IE9 and wireless settings successfully. Our customer was extremely happy with the results. Thanks for stepping up to the plate and lending a hand, Amanda :D

**Tammie Bartkowiak**, **Samara Rivera-Rangel**, and **Michelle Campos**, thank you for responding quickly to budget questions as we worked to close the 2014/15 financial period. Communication is the key! Katie Hernandez

Thanks to **Robert Hernandez** and **Chris Roberts** for working overtime on Friday to support the cabling teams! While other staff members enjoyed the summer's first Friday off, **Robert** and **Chris** supported the cabling team's effort by going the extra mile in an attempt to gain momentum on this project. -Paula Ross

Thanks to **Oscar Villar** for working all weekend preparing the IP scopes needed for the CyLakes and CyWoods campus conversion. I am sorry that you had to alter your personal plans for the weekend in order to get this task completed!! -Paula Ross

Thanks to both **Lance Melancon** and **Michelle Campos** for finding and installing Microsoft Project on my laptop. I am now able to read the vendor's project plans. -Paula Ross

Greg Rhodes thanks **Ken Gibson** for jumping in and helping where ever necessary and without being asked. He is a great addition to the team.

I do not know what I could ever possibly say to **Frank Adian**, because thank you is not enough. Frank has been so supportive with his staff in every way possible! Thank you! -Paula Ross
