**Service
Oriented**

Core Values

Mark Flores, Director of Payroll and Insurance

Mark Flores, Director of Payroll and Insurance, restructured his office space this week. The insurance department personnel relocated to a newly renovated space adjacent the payroll area.

In reflection, Mark commented how smoothly the technology aspect of the move went. When the staff members arrived at their new areas, the phones were in place and working properly, the computers were also in place and working properly.

In summary, the **ISA** team, **ECN** team, **NMO** team, the **DII** team, the **AAS** team and the **CCC** team all worked together to make this transition as smooth as possible for Mark and his team. By the way, these teams represent every team in technology services.

This truly was a team effort.
