TPAC RESPONSE

The 2014 Bond Initiative has spent over \$10,000,000 to install high speed wireless access infrastructure across the district. This bond goal, along with thirteen other goals, has been in full swing since March, 2014 and is intended to implement a network that reliably, securely, and cost-effectively meets student learning needs and helps prepare them to be 21st century global leaders.

The committee suggests that staff may stay updated by reviewing the Technology Services website for ongoing progress in these upgrades. Click the box below: Thank you for the suggestion!
