

ClassLink Launches

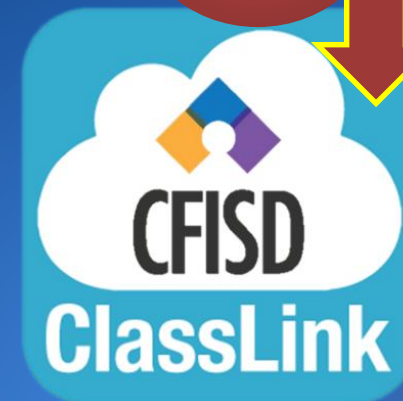

Donna Van Hooser and **Belinda Smith** worked together to perfect the data that ClassLink is using to coordinate with OneRoster. **Lee Honeycutt** and **Rodney White** worked continually with ClassLink to perfect the environment.

This is the information that comes from CFISD's eSchoolPLUS database and will be used to register each student in the ClassLink Portal.

This information includes key elements such as the student's information and schedule. This allows the system to present each student with their specific textbook.

LOGINS THIS YEAR

6,951

Wed, Aug 1, 2018 - Wed, Jul 31, 2019

Friday before the first day of school, 5, 267 people successfully logged in to the new Students and Employee Portal.

Lee Honeycutt and Rodney White worked continually, even though a power outage with ClassLink to ensure that everyone thing was in place to welcome 117,000 students to the 2019 school year.

ClassLink - Collaboration

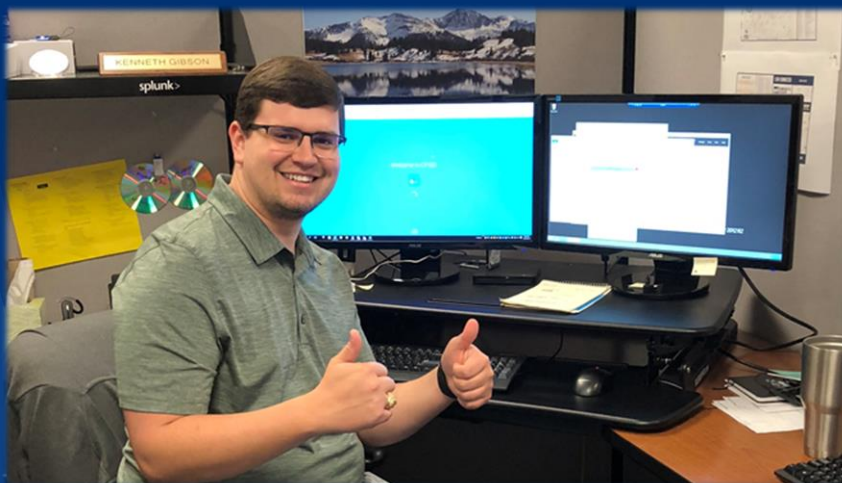

As the new Students and Employee Portal, my.cfid.net, launched, the technology teams joined forces to troubleshoot and resolve any minor issues that arose.

Eric Pena and **Anthony Melton** worked with **Rodney White** on browsers version issues.

Alex Rohr jumped in to help ensure that proper access was available.

This would not have been successful with out the cross collaboration of members from across the technology team.
