

Presenting Online Textbooks

Lee Honeycutt joined **Rodney White** (not pictured) on a conference call with Lenovo / Stoneware. This is the established weekly call that serves as the status update.

Team Textbooks made a great step forward today when the team realized their goal of digital textbook presentation for students was possible. They hope to have a live demo ready by next week.

Way To Go Team Textbook!

Lee Honeycutt

Supporting the Team

Renee Peel and **Pat Maldonado**

Teamed together to support the PEIMS department. For many reasons, the team was left to just Pat and Renee for a most of the week.

Renee Peel

Pat Maldonado

Renee and **Pat** utilized their cross-training skills to continue to provide excellent support to their customers.

Thank You Renee and Pat!

Supporting Business Services

Greg Rhodes

Eric May

Rich Crishock

Greg Rhodes, Eric May and **Oscar Villar (not pictured)** worked together to resolve an access issue to the Employee Access Center (EAC) that prevented employees from accessing information inside the EAC. Most importantly, each employees W2 tax form is securely stored in the EAC. Resolution was reached at 12:58 A.M. when Oscar overcame the last challenge. Thank you Team!

Rich Crishock, Eric May and **John Crumbley** (both not pictured) assisted Finance and Payroll departments when it came to the heavy lifting. Approximately 8,000 pounds of old reports were securely shred on-site.

ISA Leadership

John Crumbley

This week I had the opportunity to attend the TCEA Conference (Texas Computer Educators Association). This is the premier education technology conference for Texas. I saw new instructional technology that changes the way teachers teach. I also got to talk with many current and potential vendors about technology. I am grateful for the opportunity and am better for it.

Living the Dream everyday.

- John Crumbley

The ISA Leadership Team did not hold a leadership meeting this week. The leaders worked on documenting their team's key tasks.
