

# Upgrading eSchoolPLUS

The ISA eSchoolPLUS Team attended an online training session for eSchoolPLUS version 4.1.

The new features in this version far exceed the previous version. To gain access to these great additions, and provide extraordinary support to our counselors, CFISD is coordinating with PowerSchool to move to this version. Though as with all upgrades, it comes with risk, the teamwork for CFISD and PowerSchool and the added features out weighs the risk. We have the best and brightest minds working on the upgrade.
