

Supporting Parents

Lee Honeycutt

As graduation grows near, communication to the parents and students is critical. CFISD's Home Access Center (HAC) is the portal that provides academic information. When a parent can not successfully access this portal, it is stressful. Resolution is needed as soon as possible.

When that happened this week to one parent, **Lee Honeycutt** stepped in and accepted full responsibility for providing a solution this parent.

It is this dedication to customer satisfaction that transforms education for the CFISD community.
