On Wednesday, August 1, 2018, Rodney White, Ann Sempe and Belinda Smith (not pictured) worked closely with Donna VanHooser to develop a much needed report to help counselors. After analyzing the problem that counselors were having with totaling the number of used seats in a course. We decided that a Cognos report would be a benefit the district secondary counselors. This report will display a total of used seats and the total of open seats in a course. This report will help counselors with the beginning of the school year and in the future working with schedules changes and new students.
