

Dorothy Tong

Student Testing Data Maintenance

Dorothy Tong posted the April 2017 ACT student test scores this week. There were 60 records of students tests that were duplicated. Dorothy worked to analyze the data and remove the incorrect records prior to posting.

Dorothy continued working with the STAAR testing results. She posted the Reading and Math scores for grades 5 through 8 and made additional changes to the grade level retest rosters.

She also worked with **Jenifer Jones** on special STAAR Reading grade level 5 failures. The Transportation Department now has the correct list for the students attending Summer School.

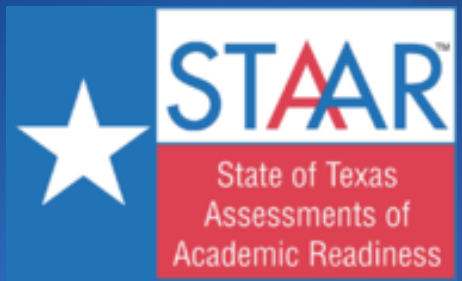

Efficient
Accessible
Systematic

Highly-Skilled
