

Ingrid Morassini & John Crumbley

A major **Value Highlight** that distinguishes a Technology Services employee is that they are **Service-Oriented**. This is critical to the success of the individual, which leads to the success of the department. Working in a technical service capacity for CFISD, each person must make customer service a priority.

To be truly successful, this must be a way of life. **Ingrid Morassini** and **John Crumbley** believe this to be true, and live a **Service Oriented** lifestyle. Ingrid and John recently met on a Sunday afternoon to provide clothing and food to a group of homeless individuals at the Church Under the Bridge near downtown Houston.
