

Enterprise Communications Network VOIP Project Completion

Below are various images of Adam ES VoIP deployment...

During the construction phase of Adam ES, the front office needed to be relocated to a temporary location. Above is the makeshift front office, with VoIP connectivity.

Pictured above is Adam ES campus receptionist, Marlen Zamora. Marlen always maintains a positive attitude no matter where they had to place her during all the hectic, campus construction.

Enterprise Communications Network VOIP Project Completion

Below are additional images of Adam ES VoIP deployment...

Pictured left is MCA Project Manager, Carlos Yepez, and his crew hustling to complete the cabling effort at Adam ES.

At left. ATT technician, Mark Garcia, configuring the SRST gateway while Kimnothy Carter observes.
